

# THE POCHE WEEKLY RECORD.

SATURDAY, JANUARY 12, 1884

## LOCAL INTELLIGENCE.

**HAMBURG.**—This old abandoned mine, which has not been touched for years, with the exception of having several years' assessment work done on it, which is located in Highland District, and was purchased by the Day company for \$150, has come to the front. Two men, after the purchase of this mine, were placed at work prospecting, and in running a drift from the bottom of the mine, encountered a vein of ore nine feet in width. The assays from this ore go as high as \$150, but we are of the opinion that the assays were made from the best of the ore. The ore vein is nine feet across—strong—and the ore will average, it is thought, fully \$40 per ton. If work was only done on a number of the old abandoned claims along the range between Pioche and Bristol, there would be a number of valuable mines opened up. If the prospectors would do more work and less talk, their fond anticipations might be realized.

On last Saturday Bob Francis left for Frisco. He has gone to Utah again for the purpose of consulting with the ranchers there and see if they will not join with the ranchers of Lincoln county in putting a stop to this wholesale stock-stealing that has been going on. It is the intention to have all the thieves and their confederates arrested and prosecuted, including several officials. Officer Bowen, a deputy sheriff of Beaver County, may possibly have trouble. It was he, Bowen, who took the cattle from the thieves, and turned them over in butcher James' charge, and when asked about the cattle, denied knowing where they were. After he and James received a reward, they went and brought in the cattle from where they were cached. The best way to deal with cattle-thieves and their confederates, is to shoot them first and then arrest them. It is the quickest, easiest, cheapest and most effectual.

**HORSES STOLEN.**—There has been considerable stock recently stolen from the ranchers in this county and driven into Utah. The old Chilian, Savor, who has been engaged in horse raising, a few days ago had his whole band of horses stolen out near Spring Valley. The only horse the old man had left was the one he was riding. He is now in search of the thieves. However, we do not believe that Savor will be much loser by the running off of his horses, for he is an excellent hand at the business himself. If he does not recover his own horses, he will get hold of some that belong to other people, and will most likely charge good interest for those he had stolen from him.

**RAILROAD PASS.**—We learn by a letter received in Pioche from Salt Lake City, that the parties who purchased the little railroad will place the roadbed in Condor Canyon in good condition, and to such effect an order has been issued. The iron and ties will remain the whole length of the Canyon. This is done for the purpose of holding the right of way through the Canyon, and is to be sold to a railroad corporation that intends running its line down through the Canyon. The late purchasers of the narrow-gauge will receive about four times as much for the right of way through Condor Canyon as the whole line cost them.

**THE TEMPEST MINE OF BRISTOL DISTRICT** has been relocated. This is one of the best, if not the best, mines in the district. There are many hundred tons of a fair paying quality of ore in sight, and it was the principal mine in the series formerly owned by the Gilmer & Salisbury Company, but which has recently been changed to the Iron-Silver Company. Two men were sent to the mine for the purpose of doing assessment work, but instead of working on the Tempest, they worked on the adjoining claim, known as the Red Cloud. On the 24 of January old Uncle Abe Rickard relocated it, and he has a perfect title.

**IT WAS GRUB HE WANTED.**—Brother Kelly, who is employed by the Mormons to assist at Pioche in tearing up the railroad, went into the boarding-house run by the Mormons for the hands, and asked for his dinner. Being a little late, the cook told him that he could not get dinner till the Bishop first came and said a prayer before he ate. Kelly, being hungry, was vexed at the delay, and exclaimed, "it's not prayers I want in me, but grub." Kelly would make an excellent Mormon Bishop, as he possesses the generous nature of most of his countrymen, and loves all the "families."

**AND AGAIN.**—The residents of Pioche were surprised Thursday evening by the announcement of the marriage of D. A. Fulk to Miss Georgia Clark. The bashful young couple were very shy in regard to the marriage and the affair was not known till after the ceremony had been performed and the newly wedded couple made their appearance at the Odd Fellows' reception, extended to Grand Master Smith. Their many friends wish them joy.

**THE PAY-DAY MINE** has been relocated at Royal City. The company have had a watchman at the works ever since the mine closed down, and it is probable that they will be able to prove that he has done \$100 worth of work during the last year.

**CHOICE GOODS.**—Fresh Malaga raisins, fresh California raisins, new currants, new table fruits, jams and jellies, mince meat and plum pudding, and many other choice fresh goods received yesterday at Poudjades.

## BULLIONVILLE AND PANACA DOTS.

Our donkey was on a mission to the Eagleites during the week.

Miss Sarah Hamblin of Clover Valley is sojourning in our village.

Houses are being taken from Bullionville at the rate of one a day.

Lovers of skating will find a beautiful sheet of ice over at Bullionville.

Brother Sparks has been dealing the boys a little percentage stud at Mr. Wedge's place during the week.

Brother Gentry is bringing some fat mutton from across the line to peddle to our people. Cash must be scarce in God's country.

Every few days a cargo of church slaves arrive from across the line to help remove the railroad that was lately purchased by Mr. Taylor.

Crowbar Dan and professor Zacho are two of the most enterprising citizens in Bullionville. Dan is chief-hostler for Anthony Mc, and Zacho is boss broom concentrator.

The last seen of Willie Pulsipher of Clover Valley he was going for medical aid to Salt Lake as fast as a horse could take him. It seems Willie got neuralgia in the head while out in the Bull Valley country, and some old woman told him it was dropsy, hence the scare.

Mrs. John Wedge proposes raffling off her elegant six-octave parlor organ on Wednesday evening, the 16th inst., after which she will furnish the musicians for a grand hop at Social Hall. The tickets for the raffle will be sold at \$1 each, which will also admit the holder to the dance.

Several Pioche Indians, with the belle of the campoooy, indulged in a protracted war dance Tuesday evening, on the road between Panaca and Bullionville. Next morning the sagebrush in the vicinity was decorated with strips of calico, beads, paint brushes, looking-glasses, and all the other paraphernalia that goes to make up an Indian maiden's toilet.

Not long since one of our Elders had some washing done in Bullionville by a Chinese laundry man. Calling in a few days afterward for the clothing, he found it neatly done up in a newspaper, and on enquiring the charges, the Celestial informed him that the price was one dollar and a half. Thinking this rather an exorbitant price for six pieces he angrily demanded an explanation, and the Chinaman as angrily tore the newspaper from around the bundle and taking one of the pieces, which happened to be an endowment robe, by both the extremes, he held it up, and said, "What for you Mormon man foolery me; sewing shirt and drawers together to elude Chinaman?" In vain our Elder tried to explain matters, but the more he talked the more John became excited, and in sheer disgust with that Chinaman, and the heathens in particular, he dropped the dollar and a half and beat a hasty retreat.

Sometimes this girl errs, like other scribes, in her report of current events and local happenings to her beloved Record. This was the case a few weeks since, when we gladly noted the change, as we thought, for the better, in our Elders, they having seemingly dropped for the time-being that moroseness and churlishness which previously characterized their conduct toward "outsiders" on all occasions when a church dance was given in the school-house. At the time we wrote, several "outsiders"—as they term them—had been in the habit of mingling with the Saints and fair Saintesses in the giddy mazes of the waltz; but the next party that was given in the house of prayer a respectable young fellow, because, as he said, it was not customary to allow Gentiles to mingle with such a respectable and altogether moral assemblage. Ta-ta, Bishop.

We have been informed that the Book of Mormon occupies a prominent place in our public school-room, and that Brother Findlay is in the habit of referring to it occasionally for those revealed truths which are nowhere else to be found outside of that holy book. No doubt this is a very proper procedure, from a Mormon standpoint, and the teacher may think, while cultivating that old maxim, "as you bend the twig, so will the tree grow," that he is serving the Lord by instilling into the youthful minds of his pupils the Latter-day doctrines of Joseph Smith; but we wish to remind Mr. Teacher of his oath of office, and we also wish to refreshen the minds of our religious-mushheaded School Trustees of their oath of office, as well as the fact that our public schools are not secular institutions in the fullest sense that the term implies. Read the law, gentlemen, page 3368, Compiled laws, sec. 49: "No books, tracts, or papers of a sectarian or denominational character shall be used or introduced in any school established under the provisions of this act; nor shall sectarian nor denominational doctrines be taught therein; nor shall any school whatever receive any of the public school funds which has not been taught in accordance with the provisions of this act."

The quickest time on record. J. Poudjades received freight from San Francisco, during the week, in 12 days from the time of starting.

This is a good time to advertise delinquent co-owners in mining claims. If they won't either pay or work advertise them out.

There was a man in Pioche, but owing to his extreme bashfulness we defer mentioning his name, who had been lying in a precarious condition in bed for three days, when the doctor called on him on the afternoon of the third day and gave him a dose of medicine. That evening the man arose from his bed, crawled into a "biled" shirt and his best duds, and was legally harnessed to a running mate, for better or for worse. Upon D. C. Clark learning the effects of this wonderful medicine, he rushed up to G. R. Alexander's drug store and ordered a dozen doses. He was soon followed by Louis Klein, who had also been taken suddenly sick, and he ordered two dozen doses. Many of the other young boys of town have also become suddenly and dangerously ill, and are purchasing medicine at a lively rate. McMahon writes Dr. Alexander to send him down two barrels of that kind of medicine that Bob Fulk has been taking. He knows it is just the stuff to cure him.

W. B. SMITH of Eureka, the Grand Master of the Grand Lodge of I. O. O. F. of Nevada, is now visiting Pioche. On Thursday evening Pioche Lodge gave their Grand Master a warm welcome. A reception was held at the hall of the order, which was filled with members of the fraternity and their families. A splendid supper was spread during the evening, which was very creditable to Mr. Wm. Bell, who had the supervision of the collation under his sole charge, and he deserves great praise. The time was pleasantly passed away till half-past 1 o'clock next morning, when all repaired to their homes. Mr. Smith will remain in town till next Monday.

A MAN named Kaiser, who was recently discharged from the Mendha mine, went from town out to the mine on Sunday, and being pretty well charged with evil spirits, shot his mouth off and threatened to kill the foreman of the mine and his friends. Parties came into town Sunday night and had a warrant issued for his arrest, and the officers went out there that night and brought him in. The trial was set for Tuesday, but when the case was called, no witness appearing against the accused, the Justice let him go. A few minutes after the case was dismissed, the witnesses all arrived in town.

CHAS. S. KING, proprietor of the "Frisco Times," gives notice that he will not be responsible for any one's bills, without an order from him. While Charles was spending the holidays with the old folks at home, several of his lady admirers at Frisco, feeling confident that if Charles had been there on Christmas he would have made them handsome and valuable presents, took it upon themselves to purchase presents, at Charles's expense, and thus show him that although away, they did not forget him. Charles is now kicking at the big bills contracted by his sweethearts. The wretch!

ECLIPSES.—There will be five eclipses this year, three of the sun and two of the moon. The first will be a partial eclipse of the sun, on March 27th, visible in the United States; the second will be a total eclipse of the moon, April 10, visible to a greater or less degree in North and South America; the third will be a partial eclipse of the sun, April 25, invisible in America; the fourth a total eclipse of the moon, October 4, not visible on the Pacific Coast, and the fifth will be an eclipse of the sun, October 18, visible on the Pacific Coast.

COMMISSIONERS' PROCEEDINGS.—At a meeting of the Board of Commissioners on Monday the Sheriff was ordered to file an additional bond of \$2,000, District Attorney \$2,500, Public Administrator \$2,000, Assessor \$2,000, Recorder \$2,000, County Clerk \$2,000, Justice of the Peace of Pioche Township \$500 and the Justice at the Muddy a new bond. There were ordered transferred from the General Fund to the Salary Fund \$237.54, and from the Current Expense Fund to the Contingent Fund \$300.

JUDGE RIVES arrived on Tuesday night's stage, accompanied by Messrs. Baker and Wines, of Eureka, who are here attending the January term of Court. The firm of Baker & Wines are getting considerable law business in this county. The pump of one of the locomotives was left filled with water the other night, and the water freezing, it bursted the pipes. Such is the fruit produced by hiring incompetent men, because they will work cheap.

SETTLING.—J. B. Eddy, of the Bristol S. M. Company, was in town Wednesday and he distributed about \$1,000 in paying up some of the old indebtedness of the company.

FRANK GODDE arrived at Frisco on Saturday last, and is having a residence prepared for his wife, who remains in Salt Lake till everything is completed.

On last Sabbath afternoon, at about half-past 4 o'clock, the wife of T. J. Osborne presented him with a token of affection in the shape of a little girl.

Bristol is getting filled with men who are in search of employment, but we are sorry to state that up to the present time there has been a poor chance for work.

Mrs. W. L. McKee has returned from her visit to Holly Springs, Mississippi, and is now stopping with her sister in Snake Valley.

The District Court convened Wednesday. There has been very little business transacted.

HYMAN has just received a fine lot of gentlemen's goods, such as shirts, boots, shoes, etc.

## MARKS OF AGES IN ANIMALS.

A correspondent asked the Canadian Farmer for means of judging the age of cattle and sheep by their horns and teeth received this information: The horns grow uniformly for the first two or three years, and consequently no ring or wrinkle is apparent to mark the age. After that age a ring is formed each succeeding year. The general rule is to count three years for the first ring and one for each following ring, but this cannot be relied upon to tell the age exactly, as in highly-fed, highly-bred cattle earlier maturity is secured, and sometimes becomes hereditary. This is true also of the teeth, particularly of Short-horns, the usual marks of age in some instances recently noticed occurring a whole year before the time in most cattle. Generally when a month old the animal has eight incisors, the full number. At two months the four central teeth are much worn; at three months the central six, and at four months all. Then a gradual diminution of the teeth proceeds, and at fifteen months the milk teeth are far apart. At eighteen months, the two central teeth drop out and two permanent ones appear. At two years there are four permanent and four milk incisors. At three years, six permanent and two milk; at four years, eight permanent, but the two outer ones smaller than the rest. At about four years these second teeth are well developed, and a little flattened at the top, and the two central ones begin to show a dark line or mark. The full set of molars, six in each jaw, above and below, are found in the full grown ox. In some cases they are all there at the age of two years and ten months. The wearing of the teeth depends on the character of the food, as well as constitution. Generous and substantial feeding at an early age favors early dentition; and there is a good reason to think that after several generations of good feeding, such as some of our breeders and cattle fatteners give, early maturity of bone becomes transmissible. It is to be seen, therefore, that there is no criterion of age which can be depended upon.

Michael Sullivan the alleged slayer of Tom Sennell, was arrested in St. George by Sheriff Hardy and lodged in the Beaver jail on Wednesday night of last week. On last Monday morning he had an examination before Justice Combs. The prisoner was represented by P. Lochrie, who deemed it inexpedient to make any defence at the time. Upon the testimony of two witnesses for the people Sullivan was remanded to await the action of the Grand Jury.—[Frisco Times.

Frisco girls are looking longingly to leave California, where a woman only 25 years old has already had five husbands.—[Frisco Times.

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the feet of suffering humanity. Dr. Spinney will guarantee to furnish a cure for every case of weakness or private disease of any kind or character which he undertakes and fails to cure.

## MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8, Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$5. Call or address DR. SPINNEY & CO., No. 11 Kearny St., San Francisco. ds.
